PHARMACOLOGICAL ACTION

PHARMACOKINETICS:

Colostrum Milk Chews are chewable tablets containing 13% Colostrum Milk Powder on which extensive pharmacokinetic studies have not been conducted.

PHARMACODYNAMICS:

Colostrum Milk Chews contains concentrated natural immunoglobulin colostrum which is obtained from pasture fed cows within 24-48 hours after birth.

INDICATIONS:

Colostrum Milk Chews assists by strengthening immunity, promoting ligament and muscle healing, supporting gut health and decreasing inflammation.

CONTRAINDICATIONS:

Colostrum should not be used in individuals who are lactose intolerant. Do not use if a known hypersensitivity or allergy exists towards any of the ingredients. If in doubt, consult your medical practitioner.

WARNINGS AND SPECIAL PRECAUTIONS:

For optimum benefit from Colostrum powder, it should be taken on an empty stomach, 20 minutes before food. Should your general health worsen, or if you experience any untoward effects while taking this medicine, please consult your doctor, pharmacist or healthcare professional for advice. Do not exceed the recommended daily dosage. Do not use after the expiry date.

INTERACTIONS:

If you are taking any chronic medication, do not use this product without consulting your medical practitioner.

PREGNANCY AND BREASTFEEDING:

Although regarded as safe, consult your healthcare professional before use in pregnancy and breastfeeding.

DOSAGE AND DIRECTIONS FOR USE:

Always tell your healthcare professional if you are taking any other medicine. Refrain from eating or taking other supplements for 20 minutes after taking Colostrum.

Maintenance Dose

Adults: Take 5-10 chewable tablets twice daily preferably on an empty stomach with 1 glass of water or as professionally advised.

Acute Dose

Adults: Take 10-20 chewable tablets twice daily preferably on an empty stomach with 1 glass of water or as professionally advised.

Children 6-12 years: Take 4-8 chewable tablets twice daily preferably on an empty stomach with 1 glass of water or as professionally advised.

Children 3-6 years: Take 4 chewable tablets twice daily preferably on an empty stomach with 1 glass of water or as professionally advised.

SIDE EFFECTS:

Immune System Disorders:

Frequency unknown: Hypersensitivity reactions

Gastrointestinal Disorders:

Frequency unknown: Gastrointestinal disturbances.

KNOWN SYMPTOMS OF OVERDOSE AND PARTICULARS OF ITS TREATMENT:

In the event of overdosage, consult your healthcare professional or pharmacist. If neither is available, contact your nearest hospital or poison centre. Treatment is symptomatic and supportive.
